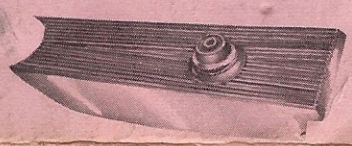
EELCO SAFTI-REST

The extremely dangerous and painful effects of neck whip-lash can now be greatly minimized with EELCO's SAFTI-REST. A shock-absorbing Urethane pillow safely cushions your neck against sudden and severe rear-end impacts. Scientifically engineered mounting brackets securely attach to the back of your car seat. Once installed, the SAFTI-REST is fully adjustable for individual comfort. Those previously long, tedious trips can now be made in comfort and safety. In addition to being a functional safety precaution, the SAFTI-REST is a very handsome accessory, giving your car that Continental sportscar look. All brackets and attaching hardware are chrome plated. The cushion is upholstered in premium vinyls having the luxurious appearance and texture of soft leather. Available in General Motors matching colors of red, black, white, tan, green, and blue. The SAFTI-REST can also be installed on all other makes having a car seat with a normal sheet metal lined seat frame.



CALIFORNIA CORVAIR CONSOLE

This is it! The newest, most stylish accessory available for Corvair. Console is highly polished cast aluminum. A lifetime vinyl boot is furnished with the Corvair Console—a very impressive installation at a moderate cost.

#3415 ..... $39.95

Adaptor Kit

The standard unit will fit any car with a steel or sheet metal backing on the seat. The adaptor will allow mounting on any seat with a round tubular frame.

#4368 Kit for Headrest (not pair of headrests) $1.75

4356	Red Headrest	Pair	$39.95

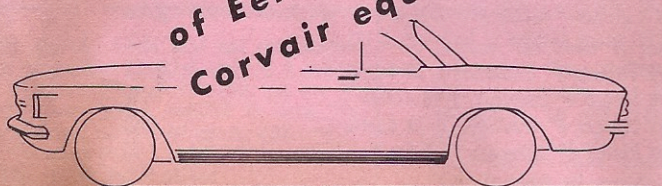
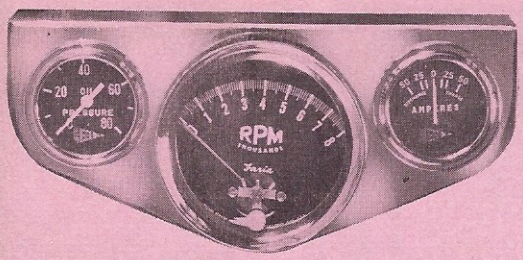
Box 4095, Inglewood, Calif.

more new items! here's your revised copy of Eelco's California Corvair equipment brochure



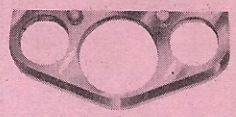
TRANSISTOR TACH



Unquestionably one of the most useful instruments you can add to your Corvair. Enables you to pinpoint shifting and avoid over-revving and lugging thru the gears. Easily installed by simply mounting and connecting wires to engine. Heavy chrome bezel, long readable scale which is indirectly illuminated, zero adjustment screw, steady needle indicator.

#9132—Tachometer complete $42.50

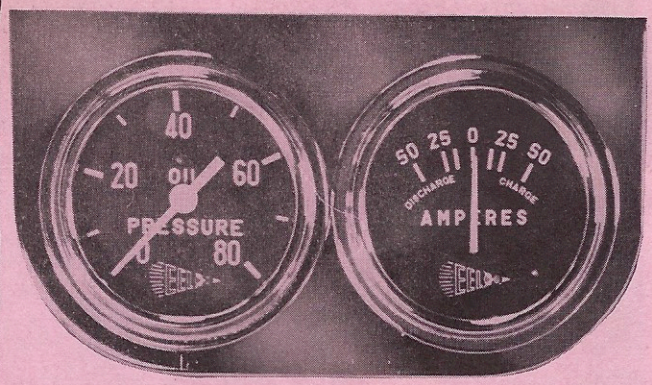
TACH PANELS



Chrome plated aluminum — has an extremely high finish. #4007 takes two 2-1/16" gauges and one 3-3/8" tach. Indirect lighting thru side of gauges. #4008 accepts identical gauges but differs in that it has front lighting. Both fit directly under radio panel.

#4007 indirect lighting $4.95
#4008 front lighting 6.95

TWIN-PACK/OIL & AMP

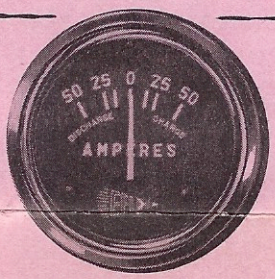


EELCO TWIN-PACK comes entirely assembled—complete, instructions included, of course.

Sells itself—each unit packed in an eye-catching display carton.

Beautifully chromed panel has a full 5/8" deep rim to shield rear of instruments from side view. The top mounting flange can be bent to any desired angle for that CUSTOM look.

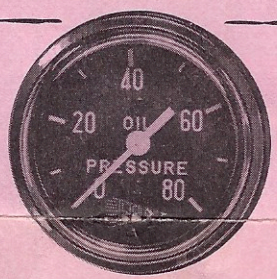
#4040 Illuminated Twinpack—Complete set ..... $ 8.95



AMMETER

Replaces that most uninformative factory blinking light. Easy-to-read dial face. Simple installation. #4065 installation kit required for oil and ammeter gauges.

#4071 ..... $3.95



OIL PRESSURE GAUGE

A vast improvement over the stock blinker. Reads 0 to 80 lbs. on an easy-to-see dial face. Matches #4071 Ammeter. (#4065 installation kit required for oil and ammeter gauges—1 kit for 2 gauges).

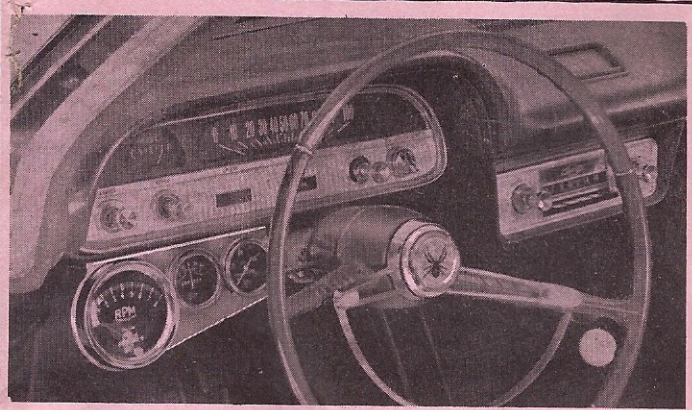
#4072 ..... $3.95

Refer to TWIN-PACKS for installation kits.

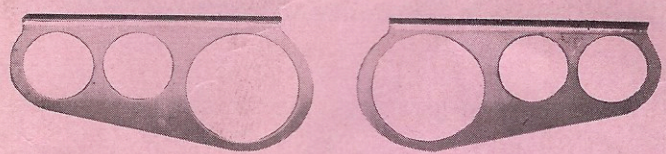
INSTALLATION KIT

Contains all necessary fittings, wire, wire terminals and copper tubing, plus instruction sheet, for oil temperature and ammeter gauges. This kit permits usual functioning of blink warning lights.

#4065 ..... $4.95



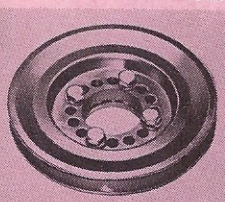
CORVAIR TACH PANELS



The two new economy tach panels are particularly suited to Corvair, but are excellent units for any car or boat. They are chrome plated aluminum and the price is right!

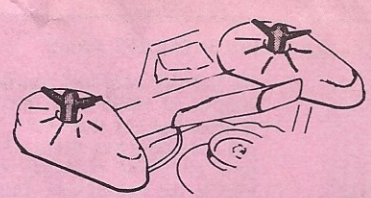
#4340 Tach on Left of Panel $2.95
4341 Tach on Right of Panel 2.95

ADJUSTABLE RATIO FAN PULLEY



Eelco's adjustable ratio fan pulley eliminates the need for several pulleys of varying ratios. 4 ratios are delivered from this unique EELCO pulley: 1.2, 1200 rpm - 1.25, 1250 rpm 1.325, 1325 rpm - 1.4, 1400 rpm. (fan rpm figures are per 1000 engine rpms). To select desired ratio just unscrew 4 bolts and rotate upper pulley flange to proper stop, bolt securely and you're off! #3411 Pulley $14.95

(Use either a #213 Tidewater belt or a #8225 Gates belt. Both readily available locally).

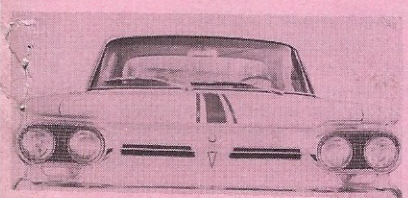


CHROME WINGNUTS

A sparkling touch for the engine compartment. Replaces the factory nut on the air filter. This brightly chromed nut will find other uses — installs on any 1/4-20 stud.

#4091 ..... $1.60 pair

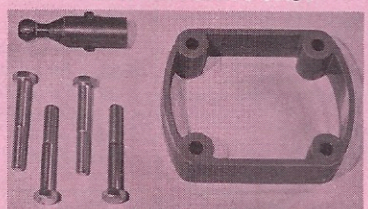
GO-REAL-FAST RACING STRIPES



Easily applied. Looks neat and professional. Made of weather resistant vinyl in 5 colors. Set of 3 rolls (Two are 1/2" wide, and one 3" wide). Enough stripe material to cover the length of your Corvair. All colors, 4.95.

#4375—white #4376—black #4377—red
#4378—yellow #4379—green

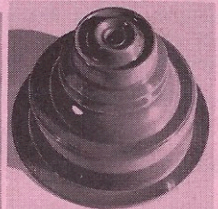
CORVAIR SHIFT FAST



Shortens the throw of your Corvair 3 or 4 speed stick. Sure, positive action. Kit easily installed—complete with all necessary parts heat-treated for long dependable use.

#4315 ..... 9.95

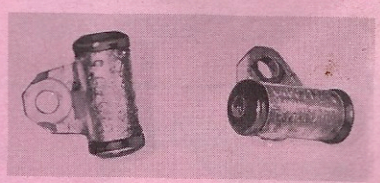
SHIFT-FAST BOOT



Order one of these beautiful lifetime vinyl boots to finish off your Fast-Shift installation.

#4371 black only 3.95

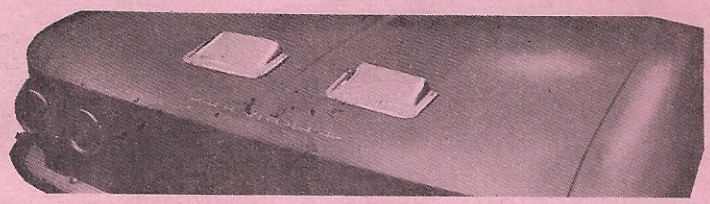
HEAVY DUTY BRAKE WHEEL CYLINDERS



Replaces stock front wheel cylinders. These cylinders are not gimmicked up but designed on sound engineering principles. A 25% increase in efficiency is the result. At 65 mph these heavy duty cylinders will bring your Corvair to a full stop 2½ car lengths shorter than with stock cylinders. In G force tests the stock installation measured .76 G while our Heavy-Duty cylinder installation resulted in a .95 G force stop. Installation instructions included. Recommended as a tremendous safety buy. #4351 ..... 27.95

California Corvair Goodies by EELCO

CORVAIR AIR SCOOPS



The use of air scoops for performance and styling is at an all time high. Eelco has designed and built scoops to the exact dimension of the Corvair Rear Deck Lid Louvers. May be installed fore or aft.

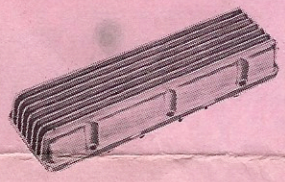
Your choice in style and finish. Chrome for show or go and primer for match or contrast. Complete with mounting template and plated screws

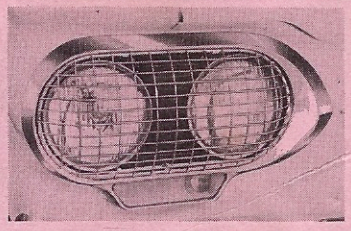
#4344 Corvair Air Scoop, Chrome Plated ..... $8.95 Per Pair
4343 Corvair Air Scoop, Primer Finish ..... 6.95 Per Pair

ALUMINUM VALVE COVERS

Cure your valve cover oil leaks with this rugged cast aluminum cover. Highly polished fins add rigidity and aid in cooling. Valve noise is also reduced because of the heavy construction.

#4333 polished, all surfaces $36.00





HEADLIGHT GRILLES

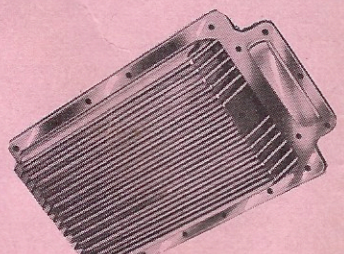
Corvair goes continental with these very European grilles. Fabricated of heavy gauge chrome plated wire and welded at all points. Furnished with all necessary screws and clips for ease of installation.

#4328 ..... $10.95 pr.

ALUMINUM OIL PAN

A beautiful and functional accessory. Highly polished. This oil pan increases oil capacity by 2 quarts. Engine efficiency is increased and running oil temperatures are kept down because of the cooling fins extending the length of the pan. Has heavy boss that can be drilled and tapped for oil temperature gauge.

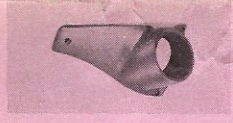
#4335 polished, all surfaces.... $37.50



EXHAUST TIPS

Here's an unusually attractive dress-up accessory. Highly polished aluminum, easily installed. Perfect for dual exhaust system installations.

#4338 ..... $14.95 pr.



Spyder

SPYDER NAMEPLATE

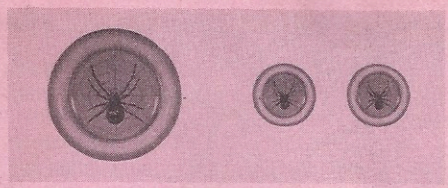
Pattern your Corvair after the new experimental Sebring Spyder Corvair. A very distinctive custom touch. Easily installed.

#3416 ..... pair 2.95

CORVAIR PATCH

The Corvair is a unique American car fashioned for discriminating people. Identify yourself as a Corvair owner with this tastefully designed patch. Corvair emblem is woven in black on a white field encircled with a black border. 3" in diameter. #3412 ..... $1.00

CALIFORNIA CORVAIR CREST ©



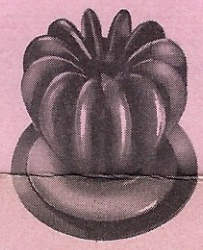
Mere words are totally inadequate in describing Eelco's CALIFORNIA CORVAIR CREST. However, we shall try. A rich black "spyder" is set against a fine red web on a lustrious satin gold background. The CORVAIR CREST design is nestled deep in a flawlessly chromed base. Actually, the only way to appreciate the CORVAIR CREST would be to throw away that unpleasant stock horn button, and replace it with this gem. The CORVAIR CREST is also available in the same 2½" diameter but with a modified base which will attach securely to the exterior of your Corvair. Also available is a 1½" diameter CORVAIR CREST suitable for either dash or exterior mounting.

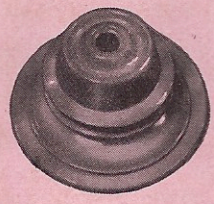
#4346 CREST Horn Button, 2½" Diameter ..... $4.95 Eea.
4345 CREST Exterior Mounting, 2½" Diameter ..... 5.95 Ea.
4347 CREST Exterior Dash Mounting, 1½" Diameter ..... 4.95 Per Pair

LIFETIME VINYL BOOT

Eelco's lifetime high-gloss vinyl boot makes a neat installation; precision molded for perfect fit and hides carpet hole completely.

#1576 black $3.95
#1577 white 3.95





CORVAIR BOOT

A new design in authentic Corvair colors enabling you to mix or match to suit your tastes. Boot is precision molded of lifetime high-gloss vinyl — will not crack or deteriorate. Hides carpet hole completely—a vast improvement over the stock appearance. All colors $2.95

Fawn #9053
Blue #9056
Aqua #9054
Red #9050
Black #9051
Gold #9055
White #9052
Silver #9057

CONTOUR SHIFT HANDLE

#4314

Brilliant chrome Spyder and web highlighted by rich contrasting black background. Add this mark of distinction to the interior of your Corvair.

The ultimate in gear shift knobs. Contoured to fit the entire hand! Guaranteed to be the most comfortable shift knob in the world! Precision die cast, highly polished, and brilliantly chrome plated.

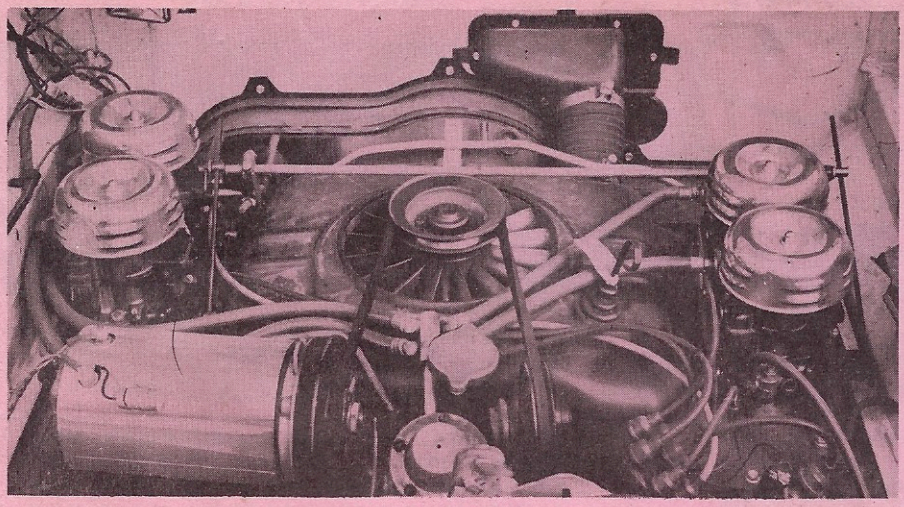
#4314 Spyder Insignia $4.95
1742 4 Spd. Insignia 4.95
#1743 3 Speed Insert 4.95

#1742

SHIFT EXTENSION

The addition of an extension is quite often the finishing touch that affords complete satisfaction with your stock floor shift. The choice of length as well as the straight or curved style is purely to individual taste and comfort. Eelco offers the new longer lengths in '63 because some customers "needed a couple of inches more." (Who doesn't)? Eelco extensions are centerless ground, polished, and triple chrome plated to afford top quality workmanship and sparkling beauty. They do not attempt to compete with unpolished, nickle plated cheapies. Eelco curved extensions incorporate an internal set screw adjustment to provide positive adjustment of the curve to the driver's wishes. A curved extension without this feature would tighten up in the wrong position 11 times out of 12!

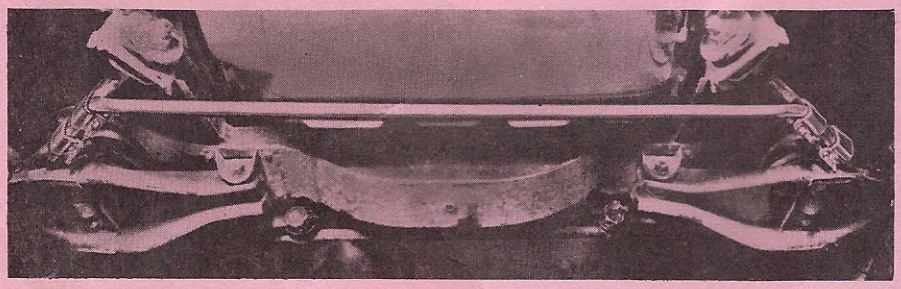
#1675 Straight 4" Extension, 5/16 Coarse $1.95
1677 Curved 4" Extension, 5/16 Coarse 2.50
1681 Straight 6" Extension, 5/16 Coarse 2.25
1682 Curved 6" Extension, 5/16 Coarse 2.75

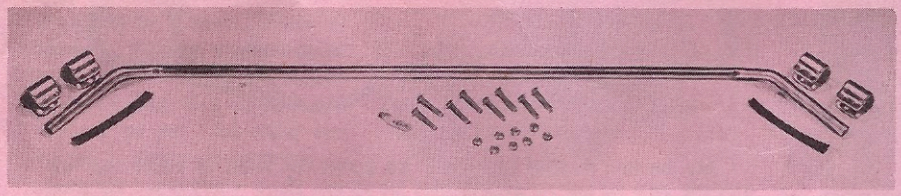


THOMAS 4 CARB- KIT

By doubling carburetion this modestly priced kit nets a 41% horsepower increase at the rear wheels—with no undesirable side effects. In extensive tests Dynamometer readings jumped from 72 to 102. Quarter-mile clocking went from 71 to 85 mph. Kit allows normal idle characteristics, eliminates flat-spots in acceleration, pulls smoothly at any speed and accelerates smoothly from any speed no matter how the throttle is opened. Extra power is easily noted at speeds of 50 mph and up (especially on hills and in passing). A recommended installation at a very reasonable cost.

#3417 less carbs $49.95



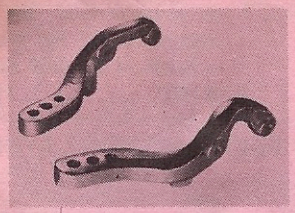


STABILIZER BAR

An extremely useful addition to the Corvair. Improves cornering ability and minimizes road wander. Proper wheel alignment is easier to maintain, thereby affording longer tire life. Roadability and steering are generally improved by the use of Eelco's stabilizer bar. An easy, trouble-free installation. All necessary brackets and hardware furnished.

#4331 ..... $18.95

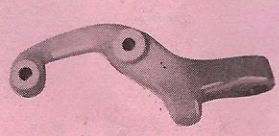
ADJUSTABLE RATIO STEERING ARMS



The CORVAIR adjustable steering arms is ruggedly designed of ductile steel with far thicker cross-sections than the stock arm. One piece construction - no dangerous welds! 3 ratios available to cover all driving conditions from road racing to trips to the supermarket! Easly adjustable by removing one nut and repositioning tapered pin in desired holes. EELCO arms are easily installed. Ratios available: 3 turns lock-to-lock, 4¼ turns lock-to-lock, and stock.

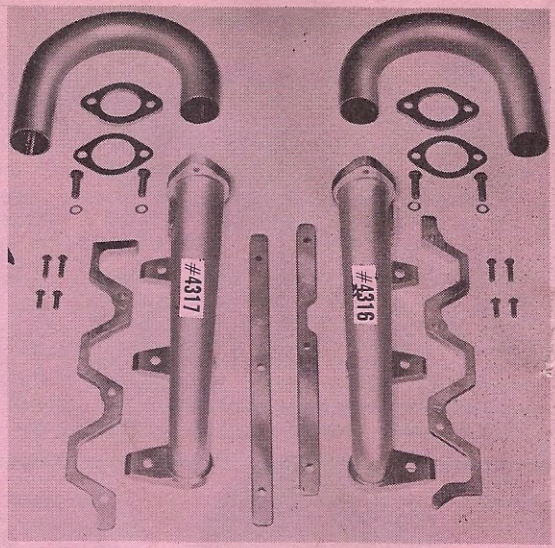
#4321 Steering Arms $39.00

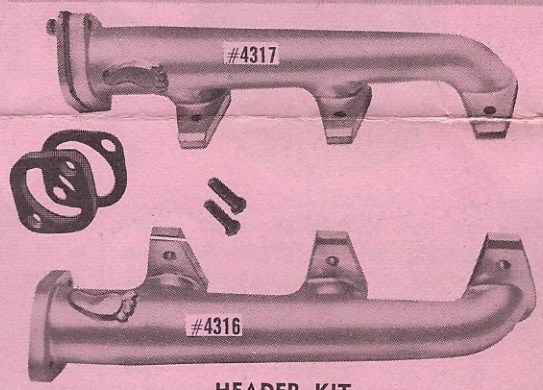
STEERING ARMS



Shorter steering arms speed up steering ratio with no loss in turning radius. Steering ratio reduced to 2⅞ turns, lock-to-lock. Used in conjunction with Eelco Stabilizer Bar; it provides surer sports car handling and roadability. Ruggedly made of ductile steel by one of the few licensees of International Nickel Company. Steering arms were tested by an independent testing company. The Standard Corvair arms will start to bend at 4,000 pounds. The Eelco steering arms start to bend at 4,500 pounds.

#4330 ..... $22.00

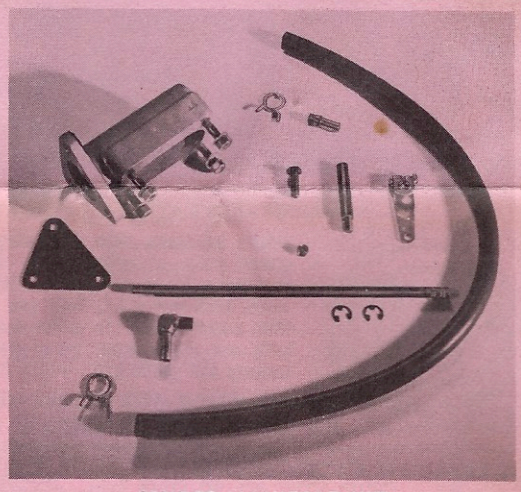




HEADER KIT

Relieve the back pressure of your Corvair engine for higher hp output. Increase performance and mileage. Spacers provided with kit allow use of stock air shrouds. Headers can be reversed for racing use. Eelco's kit is the only kit permitting use of the stock heater. Definitely a must when installing the Thomas 4 carb kit. Complete with instructions, as shown.

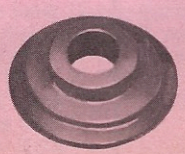
#4318 ..... $59.95



SPYDER MANIFOLD KIT

If you purchased a CORVAIR SPYDER for the extra horses get ready for a real kick. Eelco's Spyder Manifold kit enables the use of a efficient Stromberg 2 throat carburetor (#380499). A simple bolt-on installation; no cutting or welding required. Tests show a big 30% gain in hp—lots of hp at a very modest outlay! #4339 (instructions included) 59.95

ALUMINUM VALVE RETAINERS



These anodized durable light retainers effectively reduce weight in valve train, permitting higher rpm. Black anodized for long life. 102 hp engine only.

#4322 ..... $8.95 per set of 12

EELCO
